

Goulburn District River Linkages

*Rivers run through our history and folklore, and link us as a people.
They nourish and refresh us and provide a home for dazzling varieties
of fish and wildlife, and trees and plants of every sort.*

CHARLES KURALT

Rivers of carbon ~ Rivers of life

A 'river of carbon' is more than just the river, plants, trees and animals. It is about understanding the stories and connections people have to rivers.

The Goulburn District River Linkages project is part of the broader Rivers of Carbon initiative that is working on waterways in the Lachlan and Murrumbidgee catchments.

If you are a landholder and would like to improve the creek or stream on your property ...
